

ARE YOU READY FOR SOME FOOTBALL?

Labor Day was a relaxing success, and the NFL season is in full throttle again this year after kicking off the first week! In what has been a record setting heat wave around the country, fall is just around the corner and lighting will become top of mind as the sun stays out for shorter periods. As we roll into Q4, Portor will be revealing new products as we finish the 2023 year strong!

Portor is excited to announce Envision Lighting Sales has become our manufacturer's representative in the Midwest covering Kansas, Nebraska, Missouri, Iowa, and Southern Illinois. ELS has over 30 years of experience lighting up the Midwest and is led by David Burton.

"ELS has a proven track record in lighting sales and we are thrilled to have found a great fit for us in the mid-west with David and his team."

- Brandon McBride - National Sales Director
