

It's time to get into the holiday spirit, put on our coats, and limber up in our sweatpants. The lighthearted, festive part of the year is upon us at Portor as we fall into gravy-induced food comas and curl up next to our fireplaces. Q4 has been off to a great start with many new products coming to market including Retrofit Gimbal Downlights, Bollards, 2Ft. Vapor Tights, Fire-Rated Downlights, and more are on the way. Stay Tuned!

## PORTOR EXPANDS INVENTORY OPTIONS IN CHICAGOLAND

**PG ENLIGHTEN**  
500 Quail Ridge Drive,  
Westmont, IL 60559  
[www.pg-enlighten.com](http://www.pg-enlighten.com)

Portor is excited to announce our expansion into the Chicagoland market with stock available locally for same-day pick up in Mokena, IL. In partnership with Chicago's best at PG Enlighten, Portor aims to improve service to local distributors by decreasing lead times, reducing pressure on floor space, and offering convenient, off-the-shelf product assortments. Talk to your Portor representative at PG Enlighten for more details!

## INTRODUCING THE PT-ABL SERIES BOLLARD LUMINAIRE

Portor's ABL Series Bollard is an architectural-grade bollard luminaire designed with flexibility and ease of installation in mind. The fixture is CCT and wattage field adjustable and utilizes a single body with select head options including post top, cone, and louvre style options. Standing at about 43" tall and 6" in diameter, the ABL series is suitable for illuminating walkways, entryways, drives, and other small-area lighting applications where low mounting heights are desirable.
