The TEELIO PT-5WS-BT-B is a battery-powered Bluetooth wall switch that controls TEELIO Bluetooth fixtures with ON/OFF, DIM+/DIM-, AUTO, and three customizable scene settings. It also serves as a remote controller for managing your TEELIO ecosystem within its wireless range, ensuring reliable and secure Bluetooth communication.

FEATURES

- Bluetooth 5.0 network technology enables the switch to be linked to one or more light groups via the TEELIO app
- Powered by a single CR2032 battery
- 3-scene scroll button
- LED indicator will flash for low-power battery condition
- Can be mounted on a flat surface or switch box (WP required) or used as a remote
- Easily retrofit existing wall switches with Decora wall plates (not included)
